CULTURAL SUPPORT PLANNING

A cultural support plan is an individualized plan or support agreement that aims to develop or maintain children's cultural identity through connection to family, community and culture, while they are in care.

A Cultural Support plan (CSP) is a very important document for when a child becomes an out of home care Client (OOHC), The CSP has your Relevant cultural information, Activities that maintain and support the child's cultural identity and connection with communities and culture. Supports required to ensure that the child maintains his or her connections and can participate in activities documented in the CSP.

Cultural support plans help to ensure that planning and decision-making are culturally appropriate and in the best interests of the child.

Children 'in care' are those who were residing in OOHC (including foster care, relative/kinship care, family group homes, residential care and independent living), whose care arrangements had been ordered by the relevant Children's Court and where the parental responsibility for the child had been transferred to the Minister or Chief Executive.

Referral pathway – Child protection will identify children who are eligible for Cultural support plans culturalsupportplans@gunditjmara.org.au
